

File 20100628.1500: A note from talking to Olav that I may have forgotten to record: ‘nimso’ (and I am still not sure I have that spelt right) is not the Naval Modeling and Simulation Office. It is, according to Olav, ‘a classified agency that handles funding’. I really need to track down who or what ‘nimso’ is. [Cross reference added to notes from meeting with Olav Kjono, 20100621.1404.]
