

File 20110410.0848: Lucida Console is a pretty typeface.

Confer with Dr Ashbourn on what is due with the COS application next week.

Especially in Chapter 6 of [1], cf. rumours of how certifiers think to the rumours of Masons in the Milo firm.

I am looking for a definition of the word *griever* in [1, p. 180]. Maybe I will find it in the next chapter. Update: the answer was in a footnote on page 111. A *griever* is a member of the *grievance committee* and elected by the union members to represent grievances in a particular area of the plant [1, p. 111n].

Need org charts of developer, certifier, pen test team, IV&V, CC validators, NIAP CCEVS, UCDMO.
