

File 20110901.1030: Notes from Engineering staff meeting, 1000:

October 1st starts PMA again with self-assessments. PMA in 2012 will change to something called LMCommit. Replaces objectives with commitments, will happen in December.

Please do ALL compliance training for rest of year before 10th October. Ack career discussions if you have not already done so.

Engineering reorganisation happening soon. Consolidating to one site engineering manager over both Littleton and Boulder. Also consolidating Level 2 L-codes from about 20 folks each to about 100 folks each.

Status: Engineering. Sstill out of money.
