Weekly activity report no. 20080403.2128 sequence no. 0027 week -2 TT

I have an opportunity to give a talk about experiences at Oxford at my company next week. It should be good practice, standing up in front of 80 people. I am preparing slides using the LaTeX beamer class.

One of the purposes of this trip is to secure paper records of source material that I need for my transfer report. Because the records are stored in a secured area, I can't rightly ask someone else to box up a bunch of records (not really knowing what they are), and mail it to another country. Better I do it myself. The cost of the trip will be worth it to have the records.

I will be in the USA all next week. Next regular meeting with Dr Martin will be during Week 1.
