

File 20110915.1020: Notes from Engineering staff meeting, conducted by Kevin Miller, 1000 today: Dan Kessler is Michael Van Portfliet's boss, works directly for Vicky Schamanski. Kevin did not go to Mr Kessler's all-hands yesterday; neither did I.

All compliance training due. Compliance with compliance training in the division is not so good this year.

L-245 and S-3 (unclear: is it F-3 or something else?) are hiring lots of people right now.

2011 PMA activities: multi-raters must be selected by 19th October. It is OK to enter multi-rater inputs now and avoid the rush. LM Commit email coming soon. Rather than 'objectives' which are aspirational in nature, this year will be 'commitments' which must be met, just like to our customers.

Opportunity to purchase two-year-old computers. The employee discount programme, on the other hand, offers very good discounts on things like 24% off your monthly mobile phone bill from all providers, \$9000 discounts on cars (apply directly at the corporate level), and so on.
