

File 20110922.1235: Kevin Miller called. The Navy has underfunded the department in excess of 1 million dollars and there is a severe staffing problem. They are trying to figure out what to do about my tasking after PR ends in a couple weeks. No answer yet; working on solutions. Other programmes are a possibility. Mike Van Portfliet has got my name and is working on finding me a slot. L-245 is a possibility. Talking to Steve Bean also. There is a dedicated security team in Boulder called 'Jaguar' that I might fit into. I told Kevin I would drive out there and talk to those people if he needs me to.
