

File 20100829.1258: Notes for next meeting with Dr Martin: regarding the additional anonymisation codes, the audience at my talk picked up on the core of it immediately—accreditors from different agencies not talking to one another. I didn't lead them to that at all; I was talking about something else when they began to ask those questions. Which leads me to believe it's a good independent validation that I'm onto something here.

Reasons why accreditors don't communicate:

- Country
- Corporation (this also includes agency, department, military branch of service)
- Contract (very important, the law is behind this one)
- Clearance
- Classification
