

File 20110516.1521: I have a meeting with Tom Marso tomorrow morning in Deer Creek on Probabilistic Redaction. We will discuss the GUI, a new GUI for input of SCGs, and integrating Hadoop.

Notes for Weekly Activity Report to Dr Martin: DoD 8570.01 Update 3 is expected soon. The R” developer’s Systems Engineering manager related this week that the programme office told him that T[ameka] from NSA I173 said ‘the 5.01 patch would go to CDTAB in June and would be approved at the next DSAWG. No action is needed from the program[me] office.’
