

File 20110703.1644: Notes on Shamal's dissertation: the three components of his abstract were:

1. research problem
2. list of contributions
3. validation.

At the start of Chapter 1, a very short paragraph appears laying out what the organisation of the chapter is to be,

In Chapter 1, the first section is thesis motivation. Then there is an explicit 'Research Question' section.
