

File 20110211.1600: Notes from guitar class:

Write three chapters in next three weeks. Case study overview: R” is a transfer CDS solution made by the D corporation. Funded by // programme office // development // approvals // TS SCI to U // The purpose of R” is to...

The case study involved 29 (?) stakeholders: software engineering, certification authority, IV&V, programme office, I173, I733, ...

Issues uncovered: cost, but especially time to complete the certification testing, as customer sites were waiting for installations of approved CDS and could not proceed without it. Expense of sending knowledgeable engineers on travel for testing.
