

File 20080304.0849: Side study of the CC to try to deduce the trajectory of where the CC sponsors are trying to go.

Notes from the RM all-hands meeting:

RTG cost \$5 million. Owego was very upset. PMW-160 was upset.

Were deviations from baseline at the root of the problem? Bryan Rollins wants to hold the baseline.

Need to get concurrence from the sponsor (PMW-160).
