

File 20090527.1030: Notes from meeting with Dr Martin (see also the weekly status report from 2009 May 28th for more details):

- We talked about how we will do meetings when I am gone; I would like to do voice telephone calls—avoids procrastination.
- PUT SCHEDULE IN METHODOLOGY.
- Plan time in the schedule for people to respond—have stuff to do in the mean time so as not to waste time while waiting.
- Telecon to reading group—Dr Martin will put me on speakerphone.
- Bletchley Park trip for reading group
- Dr M expressed concern over UK interviews and my running out of time to talk with them especially if they are busy and hard to schedule.
- Thought: I was going to hold off on Ian Levy for a while until I had more practice, but I guess not all plans work out.
- GO EMAIL IAN LEVY RIGHT NOW.
- Next meeting: 10:30 a.m. next Wednesday.
