File 20090406.1308: Notes from an old Security Reading Group paper, 'Toward an Approach for Measuring Software Trust' by Amoroso, Nguyen, and Weiss:

- P. G. N. paper: 'Computer Security Evaluation', AFIPS Conference Proceedings, Vol. 47, 1978

- 2167A

- Did these priciples (mentioned on page 201) lead to NISPOM?

- Definition of Trusted Path

- The authors' class T0, T1, T2, T3, T4, and T5 look a lot like CC EALs.

- Ivan: architectural reviews. See the book, *Designing Security Architecture Solutions* (red text, white cover).

- Ivan: definition of Trust vs. Assurance.
